What the South Must Learn

[From the Washington Chronicle]

Hard as the lesson is the South must learn that in peace as in war the North is more powerful It should need no better statesmanship than comes at the isolation of common sense to convince her that, as rebellion in arms brought her to the verge of ruin so continued rebellion when the arms are laid aside is certain to complete it It is sheer madness and folly to prolong resistance there is certainly nothing to be gained by it and if she thinks there is little fear, it is as sure that in due time she will be convicted of a blunder as that a four years war, undertaken to perpetuate a system, brought about the immediate destruction of what otherwise might have lasted another century The difference between the two sections hitherto has been that the South was weak while she thought herself strong and the North was strong while she thought herself weak So long as that National unpretension continued the South ruled But she been wise she would never have challenged a trial of strength which disproved the error forever When the mortal struggle came, the North showed that her material sources were without limit and her courage indomitable Her success was inevitable, and the pyramid which hitherto tottered on its apex was turned over to stand on its base It can never be put back again, for the North has not only developed a strength which she did not know she possessed, but to that is added the tremendous moral advantage of understanding her own power If the South still clings to the old error, and, though weak still believes herself strong the North at least is utterly cured of it, and will act accordingly Nor is this an idle boast It is simply a fact of history, on which the Nation is to build for the future When the South learns it and lives up to it, she will begin to re enter upon political and material prosperity, and not till then

Here is a striking case in point The levees of Louisiana have fallen during the war into neglect and decay, and the Mississippi, breaking through the artificial barriers, has already covered with its waters two and a half millions of acres, the annual products of which, in 1870 exceeded thirty millions of dollars and gave wealth and subsistence to nearly eighty thousand people Louisiana looks with well grounded alarm upon this wide spread destruction, and approbends the possible ruin of all her out on and sugar lands from the inroads of the river Unless the damages to the levees are speedily repaired, they must necessarily increase each succeeding year as a breach once made is sure to widen, and the prying river is ever seeking for new weak places The impoverished State has neither public or private capital wherewith to stay the calamity, and instinctively turns to the North to relieve her from this penalty of rebellion It is true, as she urges, that the loss of the sugar and cotton lands is a national as well as a local loss, and of far greater injury, no doubt, to the loyal whites and blacks than to the rebels It is true that she does not ask of Congress the expenditure of a dollar, either at present or prospectively, but only prays that her bonds, for which there is ample security, may be made marketable by the guarantee of the United States But the boon she seeks is unaccompanied by any concession on her part If she came with her petition in one hand and the accepted constitutional amendments in the other, it is not likely that she would knock long in vain at the doors of Congress Nothing need be asked or granted as an equivalent, for the era of compromises and bargains ended for ever with Mr. Greeley's Journey to Niagara and Mr. Blair's to Richmond, in the last year of the war But the South must learn at least her changed relation to the North, and remember when she has still atonement to make for wrongs Her appeals to private benevolence to relieve the destitution among the people, meet with a ready response, and should be evidence enough of the absence of all vindictive feeling among us But a State which in its municipal capacity asks the Federal Government to sustain its credit, to aid it in its industrial reconstruction, will be most likely to succeed when it offers proof that the result of civil war is frankly accepted, and that such political reconstruction is conceded to as the victors think it right and wise to dictate Let Louisiana set the example, and recommence at once her material prosperity and her political allegiance The Northern people are wiser counselors and better friends to the South than an accidental President

GERARD, THE LION TAMER—About two years ago the newspapers announced the death of Jules Gerard, the famous lion killer, during an exploring visit in Central Africa, but gave no account of how it occurred It appears that the French Consular Agent at Sierra Leone has been able to obtain some particulars, which he has communicated to the Government According to the information by M Auchord, a French merchant established in the Shuboro, and by Atibeh Mahomed Gerard's interpreter, the hardy explorer fell a victim to the cupidity and ferocity of the negroes whom he had engaged as his guides and protectors His baggage and provisions were at first pillaged repeatedly during his journey from Serabah to Marna by the chief of the former village Being thus deprived of all that was necessary for him to continue his route, Gerard sent back his interpretor to Sierra Leone for a fresh supply On the way back to rejoin his master he learned at the village of Nio Jupan that he had been drowned by the Kosos who had conducted him from Woola to Mackday and that his body was found in the river Jong which flows on the Territory of Shuboro According to the Ali's account the body was found quite naked, the arms tied behind his back and a piece of wood, with a large stone attached, was fastened to his waist Ali tried to recover his instruments, but could not do so The provisions he had was taken from him by the negroes, and he himself beaten, bound and kept as a slave Gerard had formed the project of traversing Africa from Sierra Leone to Algiers, passing through Timbuctoo

HOW SOUTHERN CHILDREN ARE EDUCATED—The Boston *Transcript* publishes the following extracts from an Algebra, by Major (afterwards General) D H Hill, which may be interesting as showing what Southern children are taught

Milk sells at Boston at a cent per quart A milkman mixed a certain quantity of water with 5 quarts of milk, and sold the mixture at a cents per quarts without losing by the sale What is the quantity of water added?

A Yankee mixed a certain quantity of wooden nutmegs which cost him 5 cent a piece with a quantity of real nutmegs, worth 4 cents a piece and sells the whole for $15, and gains $1 75 by the fraud How many wooden nutmegs were there?

At the "Woman's Rights Convention" held at Syracuse N Y composed of 150 delegates, the old maids childless wives, and bedlamites, were to each other as five seven and three How many of each class?

The field of battle at Buena Vista is six and a half miles from Saltillo Two Indiana soldiers (volunteers) ran away from the field of battle at the same time one ran half a mile per hour faster than the other, and reached Saltillo five minutes 51 6 11 seconds sooner than the other Required the respective rate of travel?

Greece has a free government, a free press, vote by ballot and universal, or rather, manhood suffrage In every village there is a free school, in many towns there are free colleges, and they are open on equal terms to all the citizens The system of education is one of the most perfect in Europe An English writer in a review of the progress of Greece sarcastically refers to the native virtues of Grecian rule "In Greece there is no privilege for titled aristocracy There are no game laws, no rich livings no over paid persons and starving curates, no pocket parliamentary boroughs"

A gentleman in California having made a lady a present of a pair of pistols, after several trials of skill they concluded to go through the forms of a duel They took their positions fired at the word, and to the terror of the lady the gentleman fell She threw herself frantically upon the corpse embracing and kissing it with every emotion of endearment Under such magical influence the gentleman revived, and arose unhurt from the ground, and—as is—they are to be married

"I say that the traitor has ceased to be a citizen, and in joining the rebellion has become a public enemy He forfeited his right to vote with loyal men when he renounced his citizenship and sought to destroy our Government"—*A Johnson in 1861*

By Overland Telegraph.

[DESPATCHES TO THE OREGONIAN

DATES TO MARCH 27.

Congressional.

WASHINGTON March 26—In the House Butler called attention to the fact that Bingham of Ohio had caused to be altered the official report of the personal debate last week between himself and Bingham Butler laid on the desks of the members a printed pamphlet showing the report as it was written and as it was printed, and characterized the proceeding as a most infamous one He said that the Diary of John Wilkes Booth had been kept from the knowledge of the court by fears of its destruction it having eighteen pages cut out He said that had the diary been produced it would have demonstrated Mrs Surratt's innocence of complicity in the assassination The diary showed that Booth's original purpose was capture and not assassination; also was to profit by the murder of Lincoln and would not profit by the capture and who it was that would succeed Lincoln in case the bullet made a vacancy

Bingham replied defying Butler to show any evidence that had come into his possession purporting to be produced by J Wilkes Booth not made after the fact No lawyer would admit the declarations of a felon made after the fact The common law excludes it Bingham spoke at length and bitterly against Butler who tried to make an explanation but objection was made

The Joint Committee to provide for the survey of a ship canal around the falls of the Ohio river, was passed

Crowdle of Pennsylvania, offered a Joint Resolution of inquiry as to what further legislation is required to secure the prompt payment of bounties under the Internal Revenue Act

Ward of New York, asked leave to offer a resolution directing the Judiciary Committee to inquire whether or not Mrs Surratt was improperly convicted Objection was made

A resolution was passed directing the Secretary of the Interior to withhold the issue of patents affecting the title of Spanish grants in California

A bill was passed making the office of the Solicitor of Claims a bureau in the office of the Attorney General

A bills was passed providing that members of Congress shall receive their pay monthly

The Senate amendments to several House bills were concurred in Adjourned

Washington News.

WASHINGTON March 26.—The Senate has refused to confirm Frank Blair as Minister to Austria

The Senate Judiciary Committee will probably report in favor of Wilson's resolution for the trial or release of Jefferson Davis on parol It is believed that Congress will adopt a resolution that Davis be released within a week

The Senate to day rejected the nomination of O Glenn Collins as Receiver of Public Moneys at Denver, Colorado Territory

NEW YORK, March 26.—The *Tribune* states that the President says he will send to the Senate to-morrow his nomination for the United States Marshalship of the District of Louisiana, the most lucrative office in the gift of the Government General Frank Herron and Kerby Smith are applicants for the position

The Senate Finance Committee have reported favorably upon the nomination of Gen Steadman for the Collector of Internal Revenue for New Orleans which may secure his confirmation Senator Sherman is a warm personal friend of Gen Steadman

NEW YORK, March 27.—In the Senate yesterday, Mr Conness, on a question of privilege, denied the report published in certain newspapers that he intended to go into the manufacture of wine and brandy at the close of the session

The Senate confirmed Geo W Grandy as Consul at San Juan Del Sur

Mr Mallory offered a joint resolution authorizing the Postmaster General to secure the mail contractors in the Pacific States and Territories the payment of contracts at San Francisco

CHICAGO, March 27.—The *Tribune* says the President, it is understood, has prepared a proclamation convening the Senate in executive session, should the House agree to an adjournment to-day The called session will probably be about a week

About 1,000 votes are registered in Washington—enough to control the election

WASHINGTON, March 27.—The Judiciary Committee has condemned the case of Doolittle and Patterson, and has come to no conclusion Collector Smythe was examined He is believed the committee will exculpate both Senators

The *Times'* report, that Gen Grant made suggestions to members of Congress relative to adjournment, is without foundation Gen Grant expressed no opinion about the propriety or necessity of adjournment Nothing has been done relative to the revision of the reconstruction law without his full knowledge and approbation

It is rumored that in view of the fact that the two Houses have failed to agree about a time of adjournment, the President will issue his proclamation under the Constitution fixing the day of adjournment himself

The *Tribune's* special says the Senate Judiciary Committee favor adjourning till December, because the Southern State Courts, will declare the reconstruction bill unconstitutional and the act will be inoperative till finally decided in the United States Supreme Court No decision can be made before the regular meeting of Congress, and there can be no advantage in earlier meeting.

The Kearney Massacre

ST LOUIS, March 23—The *Republican's* special correspondent at St Joseph gives the following account of the Fort Phil Kearney massacre, derived by the couriers sloers from some Crow Indians who received it from the Sioux The Sioux drew out the men at the fort, and killed them all Our men fought like tigers and would not have been wounded so easily had they not kept sockets together The combatants were so mixed up that the Indians killed several of their own party with arrows The bravery of our bugler was much admired He killed several of the Indians by beating them over the head with his bugle Sixteen Sioux and four Cheyennes were killed on the field, but after exhausting all more died of their wounds 200 others were wounded, half of whom were expected to die. They mention one man on a white horse who cut off an Indian's head with a stroke of his sabre also that when reinforcements left the fort for the battle ground they (the Indians) left, having enough of fighting 2 200 Indians were engaged in the fight and the strength of the concentrated tribes was reported at 2 800 lodges who are now moving toward the Yellowstone and Missouri rivers

The Struggle Abandoned

The wisdom of the firm course Congress has adopted in dealing with revolted States, is constantly becoming more apparent Leading men in all parts of the South are now broadly admitting the right of Congress to impose terms There is neither talk nor thought of resistance and the fallacies of State sovereignty and the idea that a victorious nation could not dictate terms, are evidently passing away These changes have been produced by the refusal of Congress to yield to rebel demands, and by its emphatic and unmistakable declaration that the loyal voice of the country shall be obeyed The insurgent States refused the constitutional amendment when they were asked to accept it, and the next proposition came to them, not in the shape of a request, but in the inexorable language of command Months ago it was stated in these columns that this would be the result, and a Copperhead paper near us took pains to deride the prediction. By this time it must be tolerably clear even to the blind guides of that party, that something has actually happened No doubt it is worm wood to them to hear that prominent men in the South whom they had relied on, are giving up the struggle, acknowledging the authority of Congress and counseling obedience and submission. It happens now that the Northern Democracy are the only people who are still infatuated with the notion that nobody's rights were impaired by the rebellion Other people learn something; they refuse to be taught wisdom even by the severe discipline of experience. They hold few Conventions now a days — Conventions afford them little relief,—but in the few they do hold they invariably renew their sympathy with the rebellion and its principles, and their devotion to State Rights. This is what they did recently in Ohio, in New Hampshire and in Connecticut; and it is the same ground on which we expect to be compelled to rout them again in Oregon. It is a curious spectacle to see the South admitting the right of Congress to overturn their so-called State governments and to prescribe the conditions on which legitimate State governments may be erected, while the Northern Democracy still adhere to the idea that everything which has been done since 1860, or which is likely to be done in future, is arbitrary and unconstitutional. This party must be schooled in adversity for some time yet before it learns even as much wisdom as has been acquired by its Southern friends.

Nevada and Colorado.

The State of Nevada is just now encountering serious difficulties. The primary cause of her embarassment is the inadequacy of her resources to their present state of development, to support the expense of a State government. Again, Nevada is a State which has recently been ridden and despoiled by politicians to as great an extent as any other State ever had the misfortune to be. The consequences of their self-seeking, of their wasteful expenditures of the public funds, and of their general indifference to the public good is the bankruptcy of a State that is not rich enough to be a prey for so many political parasites. The taxes are enormously high, and every source of revenue that ingenuity can suggest has been laid under contribution. How Nevada will manage to get through the next two years is a problem which those who are acquainted with her affairs do not profess to be able to solve. The anticipations which were formed relative to her future, at the time of her admission into the Union, have not been realized. Her wealth is based, not on the sure foundations of agriculture and commerce, but on the more precarious conditions of mining. And there is room to doubt whether Nevada will ever attain any considerable importance as a State. She has not all the various elements of wealth which are necessary to the growing prosperity of a great community.

Other States, as Oregon and Nebraska, have been admitted into the Union with a population no greater than Nevada possessed, but Oregon and Nebraska have many sources of wealth which Nevada has not and never can have. These States will therefore make steady progress, leaving Nevada far behind. Their prosperity is not ephemeral. Oregon is a State in which many people expect to live permanently; while a large part of the population of Nevada is composed of that class which merely "stops" in a place temporarily, and lives now here.

Colorado is asking for admission as a State. She may look at Nevada and read a valuable lesson upon the consequences of hasty admission. In many respects Colorado and Nevada are alike. The leading pursuit in both is that of mining. If Colorado desires to avoid the embarassments which Nevada is now beset with, she will wait a while longer before assuming the responsibilities of a State government. The same remark will apply to several other Territories which are now ambitious to put on the full titles and dignities of States.

THE U. P. R. R.—The Denver *News* of the 13th, gives the following information as to the present condition of the works on the road. The information was in a letter received from one of the directors of the road:

The road is finished, twenty miles beyond, or west of Riley, and forty days of good weather will have the track at Salina. All the iron and ties, bridges, etc, are at Chapman's crock. All the grading for one hundred miles west of Fort Riley will be finished the first of March, and the iron will be laid to Fort Ellsworth by the middle of May. An additional contract of one hundred miles, will be let on the 14th of this month, and I believe the road will be opened to the neighborhood of Pond creek by the latter end of the fall season. As soon as the grass comes out the route will be carefully surveyed to Denver, previous to location, while another party of engineers will explore the mountain ranges, for a practical pass through the mountains, and at the same time a careful examination of the country between Denver and the Omaha road I have given a fair statement of the intentions of the Railroad Company, and after careful consideration of the whole subject, am satisfied we have the ability to carry out the programme

EXCESSIVE REVENUE.—The New York *Evening Post* of a late date has the following, which contradicts the arguments going to show that there is a falling off in Internal Revenue receipts for this year

Advices from Washington show that we have raised over $170,000,000 from Internal Revenue in six months and a half which have elapsed since the commencement of the current fiscal year, July 1, 1866 This gives an average weekly revenue from excises alone, of nearly $6 300, 000, or equal to a yearly aggregate of about $328,000,000 against the estimate of $285 000, 000 for the whole year, made by Commissioner Rollins in his last annual report It will be remembered that the official returns of the aggregate receipts for each of the last fiscal years were as follows; 1864—$117 145 843 50 1865—$211, 129,529 17, 1866—$310,906 08, 07

It is said that the title of Henry Ward Beecher's forthcoming book will be *The Gift of the Clergyman*. It will contain much of the author's own life and many of his experiences in the early days of the West, when he was poor and fighting his way through the world He receives the sum named (twenty five thousand dollars) for his book on the completion of the manuscript, which will be ready by the beginning of April

A party from Olympia intends making an attempt to ascend Mount Ranier the coming summer. It is believed that no foot has yet trodden the snows that cover the summit of old "Tacoma," the greatest, though perhaps not the highest of our mountains

James G. Blaine, of Maine, it is claimed, is the handsomest man in the House of Representatives.

MORMONISM.—Horace Greeley has been lecturing in New York city, his theme being "Westward of the Mississippi" Speaking of Mormonism he is reported as saying

He had met in Utah the son of one who had once been a wealthy merchant in New York and a Mormon when that position was not approbrious with either The son was then wealthy as to father had been He had two wives nevertheless and one of them was the daughter of the other The affair was looked upon quite as a matter of course by the saints and he supposed worked as well as the three cornered affair could be expected to be! ore itself until he went home one day and found the young one had disappeared She had been invited by whom he (the lecturer) had left nor did he presume he had she never returned for she preferred no doubt the fine dresses which were not divided with her mother He had also ever among the libertine met several in lower haunts in their marital relations—one who had among his wives two of his nieces another who sent two wives the one to return to speak to each other on any occasion which made the house rather awkward to visit re Only imagine yourself and the lecturer a family of twelve children with four or five mothers to look after them up in the house and you have no faint start for hell up on earth as you can well imagine Tenyears in such a purgatory would make a man long, for the sound of Gabriel's trump of

HOMESTEAD ASSOCIATION

THE LANDS OF THE ABOVE NAMED ASSOCIATION are situated in San Francisco and are eligibly and most desirably located, adjoining the grounds purchased by the Presbyterian University Society, on which College Buildings are to be at once erected The site is less than thirty minutes ride from Montgomery street lying just west or back of the lands of the South San Francisco Homestead and Railroad Association and the Bay View Park, almost within a stone's throw of

ST. MARY'S COLLEGE.

The tract will require little or no grading, there being scarcely a single lot on which it would not be easy to build without any change of grade. It commands a

Beautiful View of the Bay,

And its opposite shore, and has a soil of extreme richness. Its great are the natural attractions of the spot that very many of the wealthy residents of San Francisco have already purchased and will build homes all around it, as it is but a few minutes ride, and desirable building residences thereon.

The Rev. E. Thomas, D. D.,

Is President of the Association Lester L Robinson formerly Vice President of the Sacramento Railroad Company, is the Treasurer, and Thomas B Lewis, formerly of Portland, Secretary

Four lots, 24x120 feet each, constitute a share, costing $315—paid in monthly installments of $10 each, after the *first* payment of $10 has been made

Map and books giving full information of the workings of the Association can be obtained at the store of J L PARRISH & CO

A VALUABLE INVENTION

THE UNDERSIGNED CALLS THE ATTENTION of smokers to the celebrated

PATENT DOUBLE-TUBE PIPES

Which he is now importing, and which are recommended to all smokers Each pipe mouth consists in the use of TWO TUBES the one for the smoke alone and the other for the passage of the saliva and the nicotine to the cup at the bottom where it can be purged The smoke being thus kept clear of contact with the saliva, is always cool and pure in its odor, and the collected nicotine which renders all other pipes offensive being entirely removed the pipe will always continue sweet and agreeable Hygiene to the human body pronounce its merits never before obtained in pipes

A leading eastern Journal says of this pipe Its merits are unmistakably proved by the fact that it is generally superseding all others in use

Another great advantage in this pipe is that the smoker can easily take it to pieces If the bowl be at any time obstructed you can withdraw the stem and re open the upper tube of the bowl with an ordinary bit of tobacco

(*Successors to Kellogg, Hewston & Company*)

CAPITAL STOCK, $1,000,000!

Directors:

JOHN PARROTT CHAS. E. McLANE,

WM C. RALSTON, A. HAYWARD,

LOUIS A. CARNETT.

LOUIS A CARNETT. President and Manager

JOHN HEWSTON, Jr Chemist and Superintendent

THIS COMPANY HAVING GREATLY enlarged their Refining Works, and introduced many other important improvements, are pleased to announce that they feel warranted in again reducing materially their terms of doing business.

THE TARIFF OF CHARGES

Which they now submit to the public—considered with reference to the cost of material and labor—is lower than in any other part of the world, and assures to the mining interest of this coast an important increase in both the mining and commercial value of bullion

Their charges hereafter will be as follows:

FOR ASSAYING DEPOSITS FOR UNPARTED GOLD BARS

One-eighth of one per cent. (three cents a quarter) for all amounts over $1,000, and two dollars for any smaller sum Returns made in twenty-four hours

FOR ASSAYING DEPOSITS FOR UNPARTED SILVER BARS

Two dollars for the gold contained, up to $1,000 and one-eighth of one per cent for all amounts over that sum, and the per cent. on the silver contained Returns made in twenty-four hours.

FOR REFINING DEPOSITS MADE FOR COIN OR FINE BARS

On bullion under 300 parts gold, 2 cents per ounce

On bullion from 300 to 600 parts gold, 4 cents per ounce

On bullion from 600 to 8700 parts gold, 6 cents per ounce

On bullion from 750 to 940 parts gold, 8 cents per ounce

Above 950 the only charge will be for coinage But there will be no charge for refining less than two dollars.

FOR COINING GOLD.

This charge will be the same as at the Mint—a half of one per cent—and which is paid by us to that institution But there will be no charge in future for making fine gold or silver bars from bullion refined by us.

RETURNS IN COIN IN FORTY-EIGHT HOURS

Silver contained in deposits for coin will be accounted for at the same rate customary at the Mint

Gold bars of other Assayers, in good standing, will be cashed by us at the highest market rates

Dust and bullion can be forwarded to us from any part of the country, and returns made through Wells, Fargo & Co's Express

CHARGES AT U. S. BRANCH MINT

For the convenience of those not familiar with the terms of the Mint, we subjoin the tariff of charges now in force at that institution

For refining bullion under 300 parts gold, 3 cents per ounce

For refining bullion from 300 to 600 parts gold, 6 cents per ounce

For refining bullion from 600 to 770 parts gold, 7 cents per ounce

For refining bullion from 750 to 980 parts gold 11 cents per ounce

For refining bullion from 930 to 1040½ parts gold 14 cents per ounce

The charge for coinage is half of one per cent, and the charge for melting fine silver bars, the same

Comparing the net value of deposits for coinage with those of unparted gold bars sold in the market—assuming that the latter cost ½ of one per cent—they must be sold at the following net rates to equal the returns which would have been made had they been deposited for coinage

86¾ per to equal Mint return at refining charge of 14 cents

84½ per to equal Mint return, at refining charge of 14 cents

86½ per to equal San Francisco A & R Works return at refining charge of 8 cents mh1d2p3m

SOLD.—A few days ago, one or two persons residing near Taylor's ferry discovered a ledge of rock which, to their partial vision, was rich in iron and that more glittering metal, silver. With dreams of sudden fortunes—and big ones at that—the parties rent a specimen into the city to have it assayed, made for the purpose of ascertaining just how wealthy the owners had become in a day, and to ascertain whether the rock contained valuable metal. The latter point was not doubted. One of the parties—the latter was not doubted. One of the parties who are generally on the alert for a good chance of this city—a practical jokinger, we guess—got wind of the professional secret, and taking a piece of genuine rock, he wended his way to a blacksmith shop, where he told that the specimen came from a new ledge near Taylor's ferry, and had a resulting test made. Of course the test was eminently satisfactory, the rock being loaded with globules of genuine silver. Certain parties who are generally on the alert for a good thing, soon heard of it, as the joker intended they should do, and hurrying, took their way with booming and hopeful countenances, accompanied by a "competent chemist," to the new Taylor's ferry road. Before reaching the new claim, they met the identical man who had brought in the lately discovered rock for assay. He had not heard from the assayers, but the speculative gentlemen from the city had heard about the globules brought out by the blickery of the smith's forge, and they required no better evidence. They wanted to go pleasantly to the mine, and to the mine they went. The chemist brought out his tools, and performed the orthodox tricks of the chemist, but found nothing—no silver, nor yet even poor, worthless iron. Several countenances here became elongated, and instantly the dreams of fortunes, the steady-going farmer and the speculative gentleman aforesaid, got up a general disrobing view in which sundry coat-tails standing out behind, were the last things seen.

VISION OF ROAD TAX.—A petition was in circulation in this city yesterday, addressed to the Court and Supervisors of Multnomah county, praying for a new and equitable distribution of the road money of the county. It sets forth that the road tax of this year will amount to eight or ten thousand dollars; that according to the late distribution of this money among the districts, the road fund being from Portland to Taylor's and Boon's ferries, the very gain about a thousand dollars; that this road is the principal thoroughfare into and out of the city; that the money so Marquam's road which can only accommodate a few persons, gets over a thousand dollars, while other unimportant roads got an undue proportion of the public funds. The petition further represents that in the opinion of the signers, the funds should be distributed so as to accomplish the greatest good to the greatest number of the *public*, and that, therefore, not more than one-fourth of the funds of the county for road purposes should be expended on the road leading to Taylor's and Boon's ferries. The prayer of the petition, of course, is that the distribution of funds be revised and made equitable among all roads of the county, according to their importance to the public. There are now about ... signatures attached to the petition and the list is rapidly growing.

THE "AJAX."—The steamer *Ajax* sailed yesterday morning at 9 o'clock, for San Francisco, with the following named passengers: M M Soria, F E Backenstose, Miss McGuire, and four children, W Call, M Stoneburner, J A Bickey, G H Chick, D H Hendrie, ... AN UNDESIRED CHIMNEY.—An old wooden building in Alder street, between First and Second, was torn down a few days since, to give place to a brick, and ground for the new building has already been broken. Mr. T. J. Dolan is the owner. This movement makes an inroad upon the Chinese establishments, for which Alder street is so notorious and which we hope to see followed up by other lot owners, till those dens are broken up, branch.

FISH.—Quite a number of people in quest of sport, went down below the city yesterday afternoon to witness a race between a couple of horses owned respectively by W. L. Hill and a Mr. Dirbin. The race, we learned, was a single dash of 400 yards, for $30 a side, Hill's horse to have 20 feet in the race. The horses belonging to Mr. Hill and Mr. Dirbin got a fine start, kept it and won by a good stretch. William is, of late, a constant devotee of Lettuce.

REV. MR. BOOTH'S LABORS.—The preaching by Rev. Mr. Booth is creating, as we hear, a very decided and ... state of religious fervor in this city. He has ... thus far this week every day and evening to ... houses, and to-day will preach at 10 A. M., 2 P. M. ... again at 7 o'clock in the evening. By request of ... large number of Christian people, to-day has been set ... for fasting and prayer. It is hoped that during the ... of services at least, business houses will be closed.

OUR HOSPITAL.—By reference to the advertising columns of this paper, it will be seen that the harkentine *Jane A. Falkinbury* will have immediate dispatch for ... Alaska. Her cargo out, so far as known now, will be 500 barrels of salmon and the balance of, say, 600 tons in flour and lumber, shipped by Messrs. McCraken, Merrill & Co. of the city. Capt. George Flavel will go out in command.

TO MARY SWEET WIFE.—Mr. Blain informs us that he will go to the Dalles next week for the purpose of organizing and equipping his party for the exploring expedition into the Indian country west of Canyon City. He expects to be ready to start from the Dalles the following week. Those who desire to accompany the party will govern themselves accordingly.

TREASURE.—The treasure shipped yesterday by the *Ajax* was as follows:

Wells, Fargo & Co.....	$25,000
Ladd & Tilton.....	20,000
Willis Bros.....	10,000
Total.....	$55,000

RECORDER'S COURT.—In the case of the State vs. Richard D. Langdon, for an assault with a dangerous weapon, taken under advisement Tuesday, the Recorder yesterday decided to hold the defendant to answer in the Circuit Court. The prisoner making no application to be admitted to bail was remanded to the county jail.

ARRIVAL OF THE STEAMERS.—The *Idaho* and *Oriflamme* are both aground, the former at the mouth of the river, and the latter a short distance below the city. The *Rescue* and *Power* brought up their passengers at half-past one this morning. The *Oriflamme* landed Companies I and K, 21st U. S. Infantry at Vancouver.

CHANGE OF TIME.—A telegram from San Francisco, last evening, says the *Continental* will sail for this port to-day at ten o'clock, instead of Saturday the 30th, as before announced.

THANKS.—We acknowledge the receipt from Senator Williams of several Congressional and Executive documents, Navy Register, etc.

SURGICAL OPERATION.—At the County Hospital, yesterday, a man named Charles Fizette had a leg amputated. A very delicate operation was, also, performed on the eye of a man named Beal, for the removal of cataract. Both operations were performed by Dr. Loryea, assisted by Drs. Hawthorne, Chapman, Wilson and Gibson.

COMING BACK.—A private dispatch was received last evening from Dr. Plummer, who so long had charge of the Telegraph Office here, in which he says he is coming to Oregon again, before long. All right, Doc, so far as we have sent, we tender the hospitalities of the city.

FREIGHT BY THE "AJAX."—2,235 bxs apples, 1,000 qr sks flour, 143 pkgs bacon, 25 rolls leather, 26 bf bbls dried apples, 13 cases tobacco, 10 bales paper, 142 sks onions, 22 bxs eggs, 14 pkgs furniture, 52 hides, 6 bales wool, 23 empty sks barrels, 3 cases mdse.

WILLAMETTE FREIGHTS.—Arrived per steamer *Alert*, Wednesday, March 27th: 1 sk dried apples, 3 bxs produce, 1 trunk, 4 pkgs wagon, 1 sewing machine, 257 bgs feed, 250 bxs apples, 125 bgs wheat and 600 qr sks flour.

TREASURE.—Wells, Fargo & Co. received last evening from the Upper Columbia $15,000 in treasure.

SEEING IS BELIEVING.—All those who doubt that Barman Bros. are selling better goods at cheaper rates than any house in this State, are invited to visit either of their houses in Portland, where the fact can be conclusively established. It is only necessary to see the goods and learn the prices, to be convinced that, at Barman Bros., is *the* place to buy clothing or gents' furnishing goods.

RELIEF AND HEALTH TO YOUR CHILDREN.—MRS. WINSLOW'S SOOTHING SYRUP for children relieves the child from pain, invigorates the stomach and bowels, corrects acidity and wind colic. Perfectly safe in all cases, as millions of mothers can testify. Thirty-five cents a bottle. Offices, 216 Fulton street, New York, and 205 High Holborn, England. Hostetter, Smith & Dean, Agents for the Pacific Coast.

Brown's Bronchial Troches for pulmonary and asthmatic disorders have proved their efficacy by a test of many years, and have received testimonials from eminent men who have used them.

Those who are suffering from coughs, colds, hoarseness, sore throat, &c., should try "*The Troches*," a simple remedy which is in almost every case effectual.

WHY THE FAMILY DYE COLORS ARE USED.—The celebrated *Family Dye Colors* of Howe & Stevens are in almost universal use—first, because they are the best in market; second, they cost but little; third, can be used in any household with the ordinary utensils of the kitchen; fourth, include every color that is wanted; never injure the most delicate fabric; sixth, save the necessity of getting new garments.—Sold by Smith & Davis.

Portland R. A. C. No. 3.—Regular Convocation on the second Thursday evening of each month at Masonic Hall, No. 16 North Front street.
By order of M. E. H. P.

Willamette Engine Company No. 1.—Drill this (Thursday) evening at 7 o'clock. By order of the Foreman. ED. F. ALBRIGHT,
March 28, 1867. Secretary.

SHATTERED CONSTITUTIONS RESTORED by HELMBOLD'S EXTRACT BUCHU.

HELMBOLD'S CONCENTRATED EXTRACT BUCHU
Is the Great Diuretic.
HELMBOLD'S CONCENTRATED EXTRACT SARSAPARILLA
Is the Great Blood Purifier.

Both are prepared according to rules of Pharmacy and Chemistry, and are the most active that can be made.

In Rockford Ill. Jan. 30th, at the residence of Mrs. S. H. Chapin, Leland Custer, youngest son of James H. and Permelia A. Twogood, late of Leland, Josephine County, Oregon, aged 10 months and 12 days.

HELMBOLD'S
FLUID EXTRACT BUCHU
Is a certain cure for diseases of the
BLADDER, KIDNEYS, GRAVEL, DROPSY, ORGANIC WEAKNESS, FEMALE COMPLAINTS, GENERAL DEBILITY,
and all diseases of the URINARY ORGANS,
whether existing in MALE OR FEMALE,
from whatever cause originating and no matter of HOW LONG STANDING.
Diseases of these organs require the use of a diuretic. If no treatment is submitted to, Consumption or Insanity may ensue. Our flesh and blood are supported from these sources, and the
HEALTH AND HAPPINESS,
and that of Posterity, depends upon prompt use of a reliable remedy.
HELMBOLD'S EXTRACT BUCHU,
Established upwards of 18 years, prepared by
H. T. HELMBOLD, Druggist,
594 Broadway, New York; and
104 South 10th Street, Philadelphia, Pa.

ENFEEBLED AND DELICATE CONSTITUTIONS, of both sexes, use HELMBOLD'S EXTRACT BUCHU. It will give brisk and energetic feelings, and enable you to sleep well.

PERRY DAVIS' VEGETABLE PAIN KILLER.

THE GREAT FAMILY MEDICINE OF THE AGE!

Pain Killer taken internally, should be administered with milk or water, and sweetened with sugar if desired, or made into a syrup with molasses. For a cough, a few drops on sugar eaten will be more effective than anything else. For sore throat, gargle the throat with a mixture of Pain Killer and water, and relief is immediate and the cure positive.

It should not be forgotten that the Pain Killer is equally as good to take internally as to use externally. Each bottle is wrapped with full directions for its use. Dyspepsia can be and is cured every day by the use of Perry Davis' Pain Killer. This is the most wonderful and valuable medicine ever known for this disease. Its action upon the system is entirely different from any other preparation known. The patient, while taking this medicine, may eat anything the appetite craves. Sold by all medicine dealers. ujh20dawlm

THE GLORY OF MAN IS STRENGTH.—Therefore the nervous and debilitated should immediately use HELMBOLD'S EXTRACT BUCHU.

Bronchitis or Chronic Sore Throat.—It is attended with irritation of the bronchial tubes, which conveys the air we breathe into the lungs. The irritation produces sore throat, hoarseness, coughing, and sometimes spitting of matter streaked with blood. If it is neglected it will extend down to the lungs, and settles into confirmed consumption. ALLEN'S LUNG BALSAM will be found a most valuable remedy for curing this disease, and prevent its running into the consumption. For sale by dealers in family medicine generally. ta20

HELMBOLD'S EXTRACT BUCHU and IMPROVED ROSE WASH cures secret and delicate disorders in all their stages, at little expense, little or no change in diet, no inconvenience and no exposure. It is pleasant in taste and odor, immediate in its action, and free from all injurious properties.

To-day and To-morrow

To-day is dark with grief and care,
To-morrow a skies am bright and fair
To-day is filled with doubtful light
To-morrow a sun shines always bright
To-day with clouds and storms we rejoice
To-morrow weave the buds of hope
To-day we walk the thorny ground
To-morrow roses bloom around
To-day we shed the bitter tear
To-morrow notes of joy we hear
To-day we wait and work and sigh
To-morrow rainbows gild the sky
To-day we sit in cheerless gloom
To-morrow flowers of beauty line m
Thus 'tis in life we alight to-day
And leave its pearls of gladness lay
Alas! too oft we find them gone,
As each to-morrow passes on
To-day should it our lamp of life
To-morrow comes earth a weary strife

Humors of a Musician

Vivier, the celebrated horn-player, is one of those men of whom anecdotes are told—an eccentric inmate upon having his own way, being whimsically peculiar.

In England he made a great sensation with his first concert, and invitations to play at private concerts were a necessary sequence On the day after, accordingly, a noble lord called upon the artist, and giving a pull to his cravat in the English fashion of a salute, with his hat on, he said, in bad French

"You must come to morrow evening and play for the Duchess of Sutherland"

Vivier looked steadily at the nobleman, and said with a significant gesture:

"Take off your hat!"

"What!" asked the visitor.

"Take off your hat!"

"Ah!—in England we have the custom of keeping our hats on"

"Take off your hat!"

Yielding to the pertinacity of those four words, which the artist would have gone on repeating thirty times if necessary, the nobleman took off his hat, and said once more

"You must come to morrow evening, and play for the Duchess of Sutherland!"

"You speak French very badly," replied the artist. "Instead of that impolite phrase, you should have said—"The Duchess of Sutherland wishes very much to hear you, and she has requested me to inquire whether you will do her the pleasure of coming to the party which she proposes to give to morrow evening'"

"Ah!—but in England we express it the other way."

"Very possibly—but unless you express it in the better way I have described to you, I shall take no notice of the invitation"

The Englishman, evidently very angry, repeated the invitation as directed

"I am happy to accept the invitation of the Duchess," said the artist

"They will give ten pounds," added the nobleman

"There again, is an ill bred manner of treating a delicate subject," said Vivier, "I should have left it to the discretion of the Duchess, but, since you have so very unceremoniously overstepped the barrier, permit me to say that 'ten pounds' is not enough."

"Ah!—but in England we only give ten pounds to an instrumentist. To singers, like Grisi or Mario, we give fifteen."

"I shall not play for any price less than twenty pounds sterling."

'Do you know said the Englishman, knitting his brow, "twenty five pounds are six hundred and thirty francs of your money"

"My price, notwithstanding"

"Well, you shall have it But do your best, and be punctual."

"I shall be ready when the Duchess' carriage calls for me," said Vivier

"Eh! do you expect a carriage to be sent for you? It is not the custom in England"

'I am very sorry—but I do not ride in hackney coaches, and if Madam, the Duchess, does not choose to send her own carriage for me, I shall not come!"

"Very well," said the Englishman, looking perfectly amazed, but submitting, spite of himself, to the tone of authority and dignified manner which the artist assumed: "The carriage shall be sent for you"

At nine the next evening, punctually drove up the Duchess' chariot, with its footman in livery, and Vivier was received with very unusual politeness a result, evidently, of the description of his manners given by her Grace's envoy From that time the eccentric horn play became triumphant.

A MODERN PETER THE GREAT.—Last fall one of our wealthy citizens, who had made a fortune as a baker, took his family to New York and put up at the Metropolitan Hotel. While looking at the sights of the metropolis, he heard of a wonderful patent bake-oven, which was the envy of all the bakers of Gotham Our baker paid a visit to the house where this oven was in operation, but was not allowed to see it, and could learn nothing of the principle upon which it was constructed. He felt his Gallic pride wounded at this rebuff, and resolved to fathom the mystery of the oven at all hazards. Going into Chatham street, he purchased a suit of old clothes, and returned to the bakery and applied for a situation as a journeyman baker The proprietor was in want of a good French baker, and gave our friend employment at $15 a week. In about three weeks our resolute baker had learned all about the oven, and satisfied himself that it was a great invention and worth a mint of money He saw the patentee, and purchased the exclusive right to use the oven in the State of Missouri. He then returned to the bake shop and told the boss he must leave him.

"Don't leave," said the boss; "you are a good baker, and suit me exactly, and I will increase your wages to $20 a week rather than have you quit"

"That is not enough to pay the expenses of my family," said the journeyman, "and I must go out West and seek other employment."

"Why, how much does it cost to keep your family?"

"I am paying $50 a day at the Metropolitan, and I don't think you would be willing to increase my wages to that amount"

"Why, who the deuce are you?"

"I am J—— G——, of St Louis, and have bought the right to use your patent oven there, and I intend to put up a dozen or two of them, and would like to employ you as foreman"

The New York baker had nothing more to say, and the two friends went to the Metropolitan and had a long talk over a bottle of champagne or two.

Daniel Webster died October 24, 1852 One week thereafter, Sunday, October 31, while the sombre funeral dings were still floating in the streets of Boston, Theodore Parker, standing at his desk in the Melodeon, preached a sermon on the death of the great statesman. It was rather a review of his life, an analysis of his powers, and a criticism upon his influence, past, present and future. In opening he admonished his hearers that he should tax their time beyond his usual wont, but should take care to so order his speech that they should sit easy on their benches He did, indeed, trespass far over the ordinary limits of pulpit discourses, for the sermon fills one hundred and eight pages. It was a wonderful production, with a tenderness approaching a woman's for the man, and the highest admiration for his marvellous gifts, and yet with passages of sharp and incisive criticism which revealed a moral anatomy most repelling

A few days after this sermon was preached it was published in the New York *Tribune*, and rumor currently affirmed that the publishing of it lost that journal ten thousand subscribers

Mr Parton recently published in the *Atlantic Monthly*, a Boston magazine, a treatise on Mr Webster, conveying the same general estimate of Mr Webster, his natural endowments, his acquirements, his motives, aims and labors, as that given by Mr Parker fourteen years before. Only now could such a paper have found a place in a Massachusetts monthly circulating in the better classes of its society Does its appearance at this time foreshadow the judgment of posterity? If so, it will be difficult to estimate too highly that unswing self poise, not to be disturbed or deflected by a popular current running all the other way, which enabled Mr Parker to detect all the hallucinations of his times and paint the picture of the great man as it shall hang through the generations in the galleries of fame.—*Pittsburg Gazette*

AN ERSA ONTO SWINE.—Josh Billings says "Hogs generally are quadriped There is a great deal uv internal revenew in a hog there am't much more waste in them than there is in a oyster. Even their tails can be worked up into white reis Hogs are good quiet boarders, they eat what is set before them, and don't ask any foolish questions There is a great many breeds amongst them Some are a close corporation breed, and some are built more apart like a hemlock slab Some are fall in the face, like a town clock and some are as long and lean as a cow catcher with a steel plated nose on them. They can awl rute well, a hog that kant rute well hez been made in vain They are a short lived animal, and generally die as soon as they get fatt The hog can be larnt a grate many cunning things, such as hunting the front gate off from the hinges tipping over the swill barrels and finding holes in the fence to git into a cornfield, but there ain't eny length to their mowrs, and it iz awful hard work for them tew find the same hole tew git out at, especially if you are at all anxious they should.

The following unanswerable political argument appears in a Parkersburg paper Vote for Gen Harmon for Mayor who was ten years old before he wore either pants or shoes"

The New York fashion of New Year calls was adopted with great success up in the Rocky Mountain settlements of Colorado this year The ladies got themselves up 'pizen fine"

The Mayor of Lynchburg, Virginia, was caught riding upon the sidewalk by a policeman who reported him to the Mayor The Mayor heard the evidence and fined himself one dollar

There was keen appreciation of truth, as well as some satire, in the suggestion of Thackeray: "Let us thank God for imparting unto us poor, weak mortals the inestimable blessing of variety!"

The believers in the doctrine that the second advent of Christ will occur this year are numerous and active in Bangor Maine They are holding frequent meetings for the dissemination of their views

An auctioneer exclaimed "Why, really, ladies and gentlemen, I am giving these things away "Are you?" said an old lady present well, I'll thank you for that silver pitcher you have in your hand

The country of Europe in which the greatest number of marriages take place is Saxony, where the yearly average is 1 to every 117 inhabitants The proportion in Spain is 1 in 126 In France the rate is 1 in 127

A lady in Spurgeon's church, in London has placed $100,000 in his hands to found an institution for the rescue and relief of vagrant children The institution is to be modeled after those at the Five Points in New York

The Paris *Moniteur* says that nearly all the wood necessary to build the temporary covering to protect the Holy Sepulchre during the restoration of that edifice has reached Jerusalem It is intended to complete the work before Easter

An exchange says that six thousand young men in Marseilles have taken an oath never to marry until the ladies give up their gewgaws Has it occurred to this Spartan band that there may not be a damsel who would care to marry one of their number

A collector of walking sticks, M Henri de Meor, a Dutchman, attracted attention to his collection by going mad and dying with a walking stick in each hand—feeble imitator of Dr Morrison, who breathed his last grasping a box of his own pills and crying for more

Some idea of the frauds perpetrated by smuggelers may be formed from the fact that a special agent sent to the frontier to investigate them, was able to make arrangements with twenty two officers of customs out of twenty three in the district, for smuggling goods into the United States

At a *bal masque* given by the guests of the Union Square Hotel, New York, lately, the great sensation was an elegant being, magnificent in dress, graceful in carriage, whom all the gentlemen fell in love with, and who proved, when the masks were taken off, to be one of their own sex

The State Commissioners on the Hoosac tunnel in Massachusetts, have advertised for proposals for continuing the work at both the eastern and western approaches, and in sinking the central shaft, which has yet to go nearly 600 feet deeper before the grade will be reached, and 1,080 feet below the surface

Twenty five farms have been sold in one section of Alabama for the low price of one dollar per acre A failure of crops caused creditors to force sales One of the sales thus made was a plantation of six hundred acres for six hundred dollars Before the war its owner possessed three hundred and fifty slaves and forty horses

During the process of extinguishing the fire in the colliery of Clackmannon, near Stirling Scotland, in 1831, about 8,000,000 cubic feet of carbonic acid gas were required to fill the mine, and a continuous stream of impure carbonic acid was kept up night and day for about three weeks The mine extended over a surface of twenty six acres, and had been thirty years on fire

A London letter says "Strange things do get into men's brains sometimes, but the strangest of all were taken from the brain of a man who died suddenly this week The doctor's official report, after a *post mortem* examination, states that, to his astonishment, he found two pieces of ice inside the skull, upon the substance of the brain The faculty are discussing and theorizing upon the marvellous fact"

Those who watch Napoleon most narrowly, pretend to see signs of another grand stroke on his part to recover his prestige, lost by his failure in Mexico and his supineness in the recent German war In this view the following from the Augsburg *Gazette*, becomes significant "It is a matter of public notoriety that the territorial concessions claimed by France have not been withdrawn, and *that the day when France will deem proper to press them is perhaps not far distant*"

A meerschaum pipe, manufactured in America, and to be sent to the Paris Exhibition, is on exhibition in a neighboring city It is eleven inches in length, and the amber mouthpiece eight inches long and two inches thick. The carving on the trunk represents the meeting of Macbeth and Banquo with the witches, on their way from the battle-field The figures and horses are four inches in height. Surmounting the bowl Shakspeare is seated in a chair, looking down upon the scene

Speaking of the efficiency of negro testimony the Charleston *Mercury* says that thus far the law admitting negro testimony in the South Carolina courts "has been attended with more than the usual success The colored witnesses appear to be fully impressed with the obligations placed upon them, and their evidence has been generally given with an evident desire to tell the whole truth and nothing but the truth There was but little tendency to prolixity and discursiveness, and the testimony has, in the late criminal trials been clear, intelligible and to the point."

About fifty years back a married couple, residing in Paris, adopted a male child that had been found in the streets, although having a son of their own The two children were brought up together, and received the same education the foundling went into business and made a large fortune, while his benefactors met with reverses, and died leaving their son a cripple, unprovided for The adopted son then devoted himself entirely to his companion in infancy refusing to marry in order not to be forced to quit him and has now just died leaving him a fortune of nearly a million francs

The New York *Tribune* has a very sensible article upon the subject of "The Mystery of Murder" in the course of which it furnishes some startling facts. Amongst others is the statement that in the city of New York there were during the year 1860 no fewer than 71 homicides and murders without including numerous cases of death by drowning or other means, where it was not quite clear whether or not there had been foul play Only 33 persons were arrested for these crimes and the records of the court show only 15 convictions (several of which were for offences committed in a previous year) with 10 prisoners still to be tried That is to say, of the perpetrators of clear and unmistakable homicide in New York, more than 50 per cent. are not arrested and nearly 80 per cent are not punished

In Paris some one has been making an analysis lately of the air we breathe in a theatre or other close house containing a thousand persons or more He carried into a theatre at ten o'clock at night a bottle of ice placed on a plate, and then collected the vapor which rapidly condensed on the outside of the bottle and flowed down on the plate At first this vapor thus collected had the smell the taste and as far as could be determined every chemical quality belonging to the waters of the most deadly fever marshes Under the microscope this water was first clear but soon that is to say in a week it was found to be full of fine animalcule A little later on these animalcule had grown, and the big ones were seen pursuing and devouring the little ones Still later on at the end of two months, the water was thick with animalcule various forms were seen and still the work of destruction was going on At last, but three hideous monsters were seen—microscope monsters of course, since they were contained in a drop of water—and these were still fighting to see which could devour the other At the end of three months the water became clear and miasmatic again

Some of our religious papers exhibit a shocking familiarity with Him before whom all the earth is commanded to 'keep silence Here is a specimen

"A beloved pastor in Indiana writes that he is determined to put the *Journal and Messenger* in the hands of every new convert that the Lord may give to his ministry He says if the Lord will give three converts, and we will send the paper for the six shall be brought together The Lord never fails and we will try to do our part"

This is eminently "business like

WHAT DENOMINATION?—A farmer who wished to invest the accumulations of his industry in United States securities went to Jay Cooke's office to obtain Treasury notes The clerk inquired

'What *denomination* will you have them in, sir?'

Having never heard that word used excepting to distinguish the religious sects, the farmer after a little deliberation, replied

'Well you may give me part in Old School Presbyterian to please the old lady but give me the left on it in Free will Baptist

RESPECTFULLY REFERRED TO DOCTOR THOMPSON.—*Dear Doctor* Please put this in your pipe and smoke it

Queen Victoria wishes further to honor her family physician, and the 'earliest friend of so many of the young British nobility He is to be created a Baron but there is a difficulty as to what shall be the title It has been suggested that he shall be called Lord Dolserus'

Punch announces as his latest and best conundrum "If you saw the Great Khan of Tartary laughing fit to kill himself why might you be sure he wasn't a Tartar? Because he would evidently be *A merry Khan*"

DR. HENLEY'S

Fountain of Life!

THE

GREAT BLOOD PURIFIER!

IN EVERY PROGRESSIVE SCIENCE PERIODS ARRIVE when a new element is introduced to its consideration, changing and from its discovery new facts shedding a light which changes the whole aspect of the science The present is an epoch of this kind and this Great Remedy now offered to the public in connection with the theory on which it is based is destined to effect an entire revolution in the treatment of the diseases of

SCROFULA AND KING'S EVIL!

by eradicating the disease entirely from the blood The FOUNTAIN OF LIFE is compounded entirely of vegetable extracts it contains no Mercury or other mineral substance

The Proprietor and Discoverer of this Sovereign Remedy CHALLENGES THE WORLD to furnish anything from the days of Æsculapius down to the present time in the arcana of Medical Science which can vie with or excel the intrinsic properties of this Great Blood Purifier, its value has been tested with the happiest effect in the most inveterate cases of Scrofula, that baffled the skill of the most eminent physicians in the world No matter what form the dreadful disease of SCROFULA and KING'S EVIL may have assumed, it can in no way be more safely and carefully arrested in its progress than by HENLEY'S GREAT BLOOD PURIFIER It counsels have been swept into the graves, who had they made a timely use of the FOUNTAIN OF LIFE might now be enjoying the blessings of life and health It requires an article of real merit and intrinsic value to sustain itself During the stern ordeal of public experiment the FOUNTAIN OF LIFE has stood the test trial and not been found wanting

☞ Dr HENLEY guarantees to CURE any case of SCROFULA or KING'S EVIL in the worst and most aggravated disease entirely from the system or no charge is made—provided they will secure him his pay when they are cured

FOR REFERENCE

I would refer you to L L Peck of Portland Oregon and numbers of others as to what a miraculous effect it had on him in a short time, in cases that had baffled the skill of physicians for years

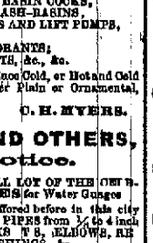
TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr Gibbon's Dispensary,



616 KEARNEY STREET, NEAR COMMERCIAL, San Francisco Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhœa, Gleet Stricture, Syphilis in all its forms Seminal Weakness, Impotency, etc Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life In this horrid situation thousands suffer until death closes the scene Let parents, guardians friends attend to those who are suffering with any of these horrible life-destroying maladies—for that they are cured by the use of Dr Gibbon's Specifics Send them immediately to Doctor Gibbon, a physician, who has made private disease his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs It is important to those who are afflicted or to those who are interested in the welfare of their friends, to be aware of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places Be therefore careful and make strict inquiry or you may fall into the hands of those charlatans

Seminal Weakness.

Seminal Emissions the consequence of self-abuse This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combated by some powerful medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears noise like the rustling of leaves and rattling of chariots, unbashful about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to former acquaintances, a disposition to shun society, loss of memory, hectic flushes; pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats monomania and frequent insanity If relief be not obtained, should apply immediately, either in person or by letter, and have a case stated by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure Dr G will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure or make no charge

Persons at a distance may be CURED AT HOME, by addressing a letter to Doctor Gibbon, stating case, symptoms length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co
